

```
dotnamecpp::utils::  
WindowsPlatformInfo  
::getExecutableDirectory
```

A diagram showing a function call. A light blue box on the left contains the text 'dotnamecpp::utils::WindowsPlatformInfo::getExecutableDirectory'. A blue arrow points from this box to a dark gray box on the right. The dark gray box contains the text 'dotnamecpp::utils::WindowsPlatformInfo::getExecutablePath'.

```
dotnamecpp::utils::  
WindowsPlatformInfo  
::getExecutablePath
```
